

SEEC 2015 Sponsorship informaton

Want to be part of something big? We think the next year is a perfect time to demonstrate that our space community is "Continuing the Dream." We are excited to invite you to be a part of our 20th annual Space Exploration Educators Conference (SEEC), February 5-7, 2015. Each year hundreds of grades K-12 teachers from across our nation engage in learning sessions hosted by NASA scientists, engineers, and astronauts, including our International Space Station partners from Canada, Europe, and Japan. Participants engage in workshops with take away cross-curricular ideas and materials ready to apply in class to inspire their students in lifelong Science, Technology, Engineering, and Mathematics pursuits.

We need your support to continue to grow this unique educational opportunity. You have demonstrated a commitment to the community and to the potential of the next generation, so we hope you will consider contributing to this effort through the opportunities listed on the enclosed page.

We want these educators to know the names of all the companies and organizations that collaborate every day to advance NASA research, knowledge, and missions. Your name and logo will be integral parts of the fabric of this conference in all the ways outlined with each participation opportunity.

Thank you for your time and consideration. You are welcome to contact me at 281-244-2149, or e-mail SEEC@spacecenter.org.

Kind regards,

Angela Case
Education Coordinator

Sponsorship Levels and Benefits

1. \$5,000 Solar System Sponsor
 - a. Logo on sponsor page in conference booklet
 - b. Company Logo displayed at help table
 - c. ½ page Ad in conference booklet
